EDUCATION

Dev Bootcamp
Seattle, WA

**Bachelor of Arts in Business
Administration**
Seattle University, Seattle, WA

SUMMARY

My new career in Software Development along with my previous experience as an Industrial Engineer has been a very interesting combination that makes me a unique addition to any team. I am motivated by a desire to enrich the community by contributing my strong communication and leadership skills, attention to detail, and ability to bring teams together.

My goal in every step of my career is to build products that will help or educate people on how to improve their lives and communities. I am most fulfilled when i can see my product bring joy to others, and to be appreciated.
